Health Science

Make your preparations while in high school for a career in Health Sciences.

Beginning with the freshmen class of 2009-2010, it is highly recommended that students complete a concentration that will better prepare them for a career in the information age. A concentration is a grouping of courses within a career cluster. The concentration will prepare students for further study at a university/college or direct entry into the workforce.

To earn a concentration for graduation in a Career and Technical Education (CTE) cluster a student must:

- Earn at least four technical credits from a Career Cluster.
- At least three of the technical credits must be from that Career Cluster's Foundational Courses.
- At least one of the technical credits must be at the completer level, identified by an asterisk on the chart.
- The fourth technical credit can be either a Foundational or Enhancement course.

Foundational Courses:
Administrative Services
7210 Health Team Relations (NE)
7211 Allied Health Science I (NE, SWE, THS)
7212 Allied Health Science II* (NE, SWE)
7221 Medical Sciences I (NE, SWE, THS)
7222 Medical Sciences II* (NE, SWE, THS)
ECC Health Sciences III* - BIO 168 Anatomy & Physiology I; MED 118 Medical Law & Ethics
ECC Health Sciences IV* - BIO 169 Anatomy & Physiology II; PSY 150 Intro to Psychology

ECC = Edgecombe Community College Academies offered free of charge to all juniors and seniors during third and forth periods at the ECC Campus

Enhancement Courses:
6871 Biotechnology I (NE)
6200 Principles of Business (NE, SWE, THS)
6215 Business Law (SWE, THS)
6311 Computerized Accounting I (SWE, THS)
6411 Computer Applications I (NE, SWE, THS)
6514 Digital Communications (NE, SWE, THS)
6145 Career Management (NE, SWE)
